Speedo Teamwear 26

Designed for you Built for Performance

At School Locker, we understand the importance of high-quality, durable swimwear for educational institutions. That's why we've partnered with Speedo to bring you **Speedo Teamwear 26**—a premium yet affordable swimwear collection designed specifically for schools and universities.

Crafted for comfort, performance, and longevity, Speedo swimwear is built to withstand the demands of lessons, training, and competitions. With cutting-edge fabric technology and a commitment to excellence, this range ensures students and athletes can focus on their performance in the water.

Embellished Stock Range

Enhance your school swimwear with the addition of school branding to items from the our essentials range. Using UltraColour heat transfer technology, a premium method designed for vibrancy and durability in high-chlorine environments, we ensure a professional, long-lasting finish that your students will be proud to wear.

Custom Swimwear Design Service

For schools looking for a fully customised swimwear collection, our in-house design team collaborates with you from concept to completion, ensuring every detail aligns with your vision.

This catalogue includes helpful recommendations on embellishment options, positioning, and sizing to help you build a swimwear collection that performs in the water and fosters school pride.

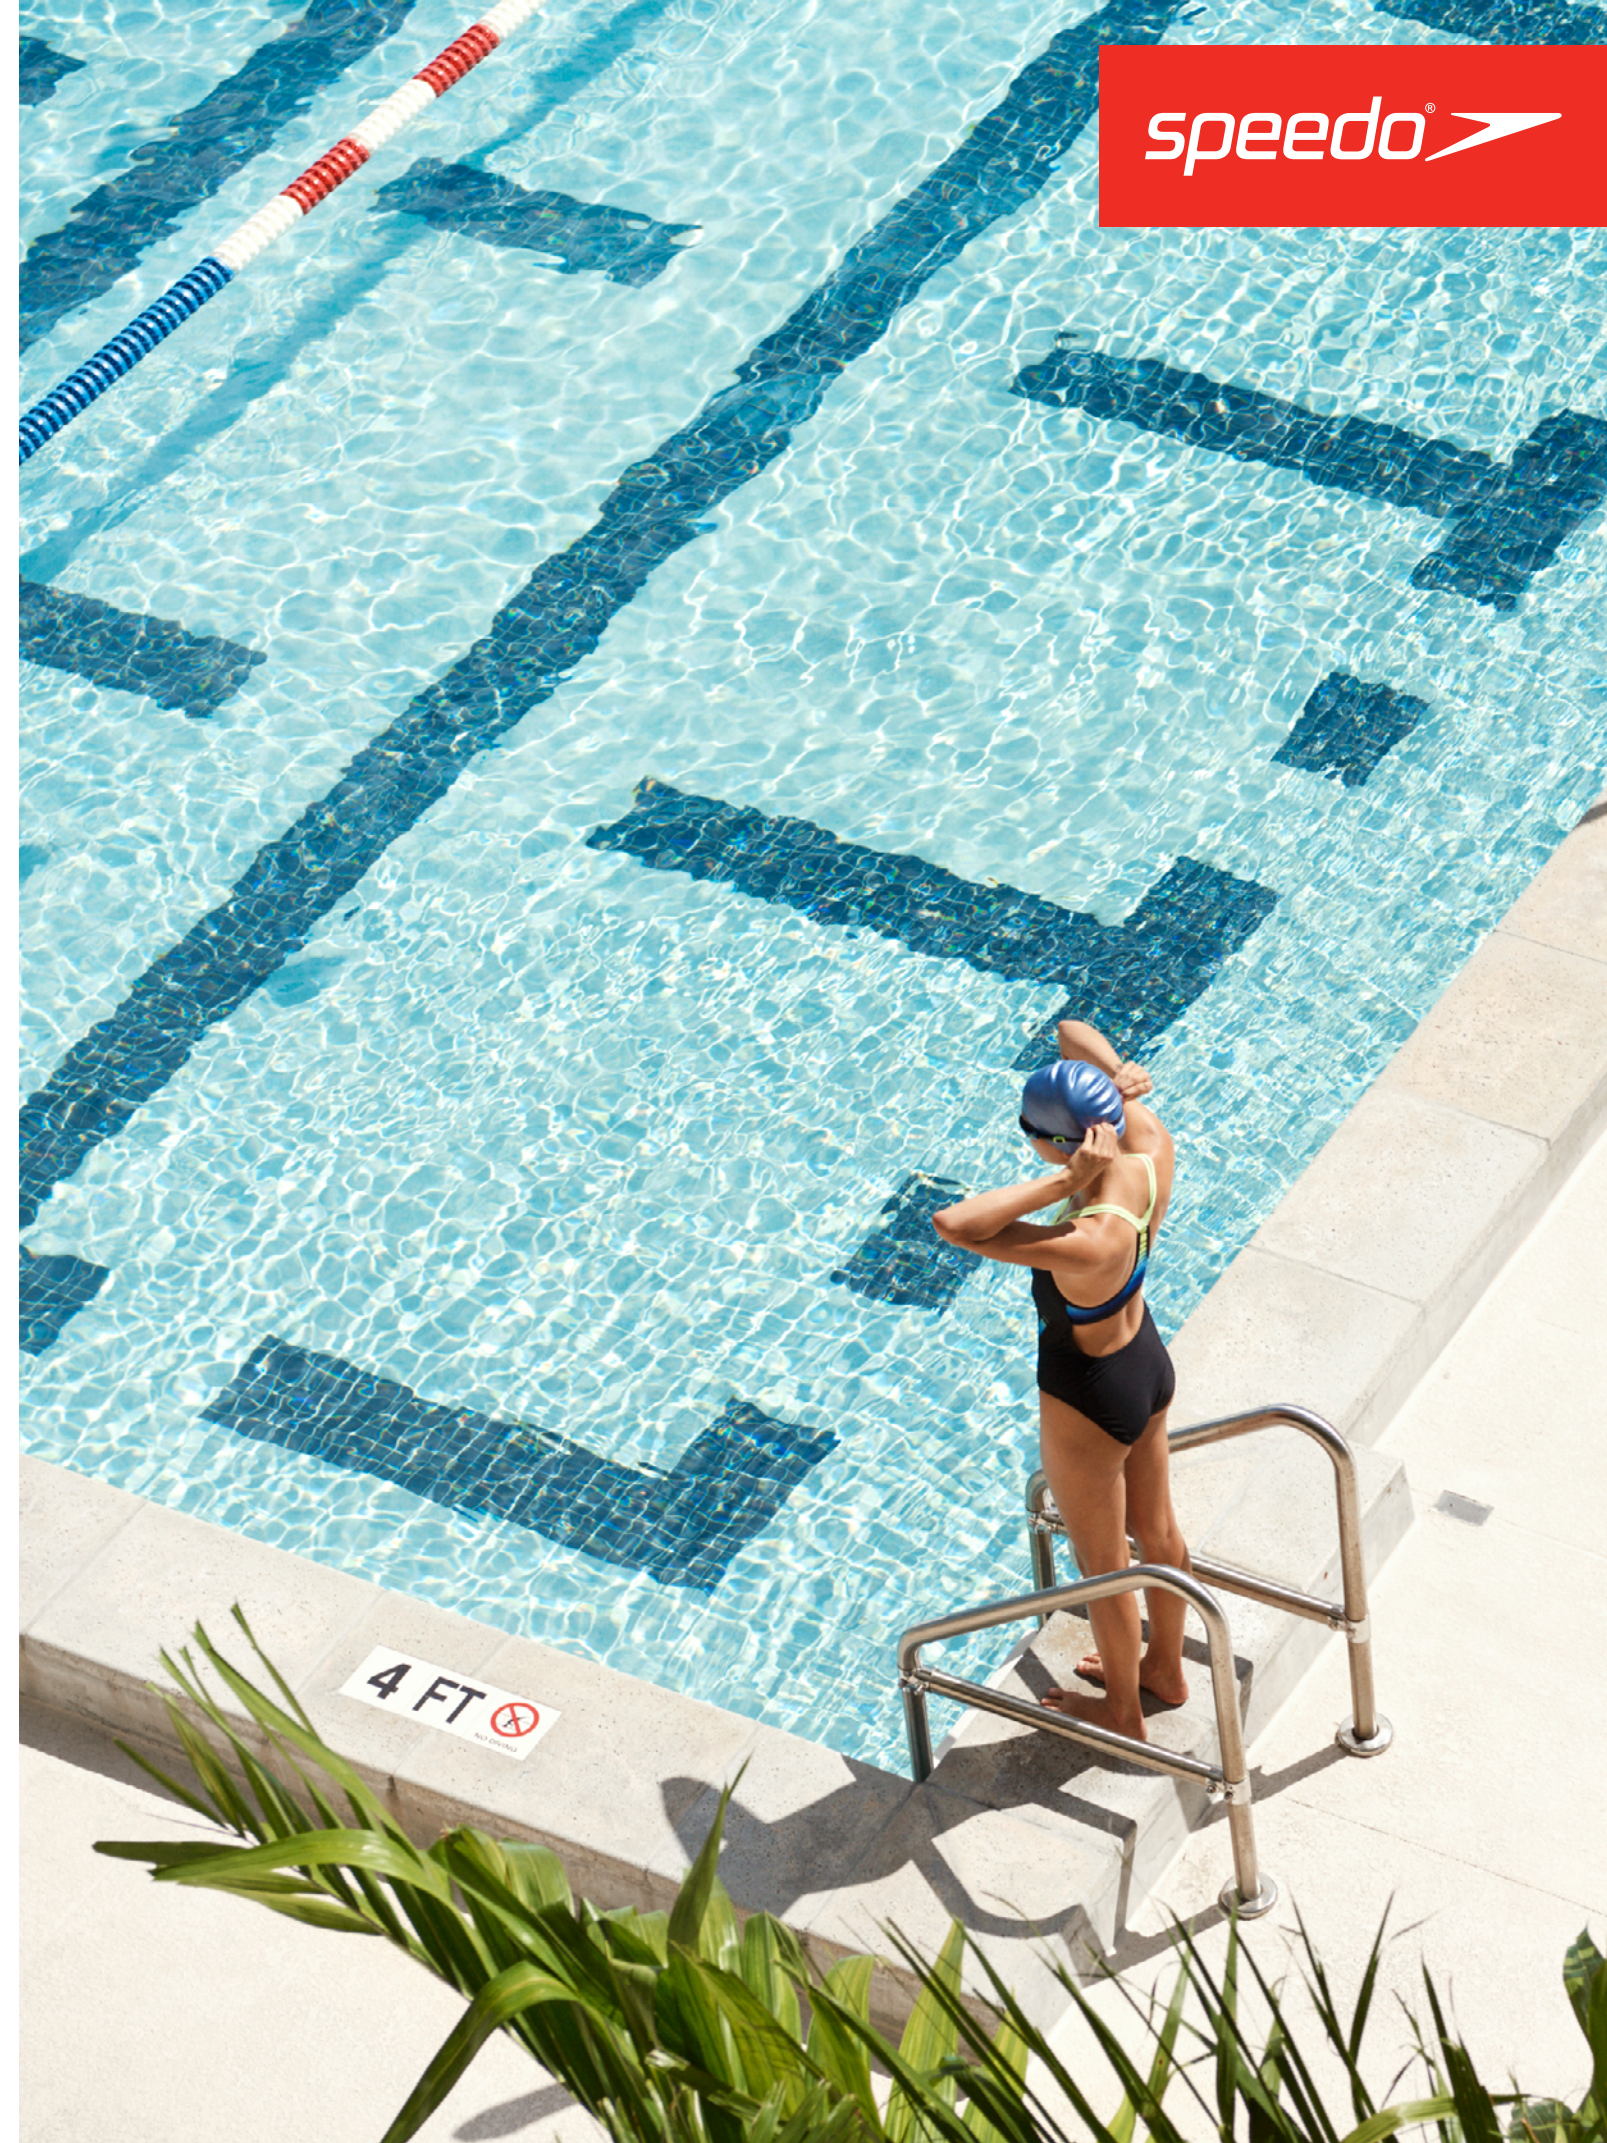

Heatseal Transfer

Direct To Fabric

Embroidery

Heatseal & Embroidery

Brand Embellishment

School Locker's state-of-the-art embellishment facility in Queensland ensures exceptional quality and precision in every detail. Our expert team offers custom branding for swimwear and towels, delivering a polished, long-lasting finish that proudly represents your school.

Swimwear Heatseal Embellishment

Using UltraColour heat transfer technology, we create vibrant, durable embellishments designed to withstand high-chlorine environments. This advanced heat transfer method creates high-quality, full-colour prints that bond seamlessly to swimwear fabric, ensuring a smooth, professional finish without adding bulk.

UltraColour is an ideal choice for swimwear because it is:

- Highly chlorine-resistant – maintains colour and adhesion even in chlorinated pools.
- Stretchable and flexible – moves with the fabric, preventing cracking or peeling.
- Lightweight and breathable – ensures comfort without compromising performance.

Perfect for school branding, UltraColour heat seals keep uniforms looking sharp, swim after swim.

Towel Embroidery

Embroidering school logos on towels adds a professional and durable finishing touch to school-branded items. This high-quality method stitches the logo directly into the fabric, ensuring a long-lasting, polished appearance that withstands frequent washing and everyday use.

Embroidery is an excellent choice because it resists fading and wear, maintains a premium, professional look, and is ideal for sports teams, swimming programs, and events. Embroidered towels offer a practical and stylish way to represent your school.

UltraColour is proudly made using products that bear ECO PASSPORT by OEKO-TEX® certification. This means materials and dyes used in the UltraColour process have been tested and certified to meet strict environmental and safety standards and ensures that these products are free from harmful chemicals, making them safer for both people and the planet.

DTF

Custom Swimwear

School Locker's design service offers the opportunity to create fully customised swimwear that embodies your institution's identity and spirit. Our experienced design team will guide you through every step of the process, ensuring your ideas are reflected in the final design.

What is DTF (Direct To Fabric)?

DTF is an advanced printing technique that produces sharp, detailed, and vibrant graphics. Unlike traditional methods, DTF prints the dye directly onto the fabric, making it more durable and resistant to fading or peeling over time.

Key Features and Benefits:

Custom design freedom – bring your brand to life with full colour graphics.

Accurate colour matching – select Pantone colours for a perfect representation of your school's official palette.

Long lasting durability – the print becomes part of the fabric, preserving stretch, flexibility, and longevity.

Seamless branding – logos and designs are directly integrated into the fabric for a clean, professional finish.

With white fabric interiors and fully customisable exteriors, our DTF printed swimwear provides a high performance and stylish solution for your institution's aquatic needs, while showcasing pride in every detail.
